Special issue: A Collection of Papers Presented at the 15th International Carbohydrate Symposium, Yokohama, Japan, August 12–17, 1990

Affinity chromatography of two sets of isomeric antibodies having specificity for different oligosaccharide units of gum arabic
J. H. Pazur, F. J. Miskiel, T. F. Witham, and N. Marchetti (University Park, PA, U.S.A.) 1

X-Ray and computer modeling studies on gellan-related polymers: Molecular structures of welan, S-657, and rhamsan
E. J. Lee and R. Chandrasekaran (West Lafayette, IN, U.S.A.) 11

Induced circular-dichroism spectra of complexes of cyclomalto-oligosaccharides and azobenzene derivatives
M. Suzuki (Osaka, Japan), M. Kajtar, J. Szejtli, M. Vikmon, E. Fenyvesi, and L. Szente (Budapest, Hungary) 25

A bireactant, reversible, active-site-directed inhibitor of β-D-galactosidase (*Escherichia coli*). Synthesis and properties of (*1/2,5,6*)-2-(3-azibutylthio)-5,6-epoxy-3-cyclohexen-1-ol
R. E. Huber (Calgary, Alta., Canada), J. Lehmann, and L. Ziser (Freiburg, Germany) . . 35

Synthesis of cerebroside, lactosyl ceramide, and ganglioside GM_3 analogs containing β-thioglycosidically linked ceramide
A. Hasegawa, M. Morita, Y. Kojima, H. Ishida, and M. Kiso (Gifu, Japan) 43

Hydrolysis of xanthan in dilute acid: Effects on chemical composition, conformation, and intrinsic viscosity
B. E. Christensen and O. Smidsrød (Trondheim, Norway) 55

The alkaline anthraquinone-2-sulfonate–H_2O_2-catalyzed oxidative degradation of lactose: An improved Spengler-Pfannenstiehl oxidation
H. E. J. Hendriks, B. F. M. Kuster and G. B. Marin (Eindhoven, The Netherlands) . . . 71

Practical synthesis of optically pure 3,4-epoxy-5-methyldihydro-2(3*H*)-furanones from D-xylose by regio- and stereo-selective functionalization
B. Hildebrandt, Y. Nakamura, and S. Ogawa (Yokohama, Japan) 87

Base-catalyzed degradation of permethylated 3-*O*-glycosylglycopyranosid-2-uloses
G. O. Aspinall, P. Capek, R. C. Carpenter, and J. Szafranek (Toronto, Ont., Canada) . . 95

A novel L-fuco-4-*O*-methyl-D-glucurono-D-xylan from *Hyptis suaveolens*
G. O. Aspinall, P. Capek, R. C. Carpenter, D. C. Gowda, and J. Szafranek (Toronto, Ont., Canada) 107

Characterization of complex formation between lipopolysaccharide and lysozome
N. Ohno, N. Tanida, and T. Yadomae (Tokyo, Japan) 115

Structural determination of D-mannans of pathogenic yeasts *Candida stellatoidea* Type I strains: TIMM 0310 and ATCC 11006 compared to IFO 1397
H. Kobayashi, T. Kojimahara, K. Takahashi, M. Takikawa, S.-I. Takahashi, N. Shibata, Y. Ohkawa, and S. Suzuki (Sendai, Japan) 131

A strong inhibition of HIV-induced cytopathic effects by synthetic (1→6)-α-D-mannopyranan sulfate
K. Hatanaka, Y. Kurihara, T. Uryu (Tokyo, Japan), O. Yoshida, N. Yamamoto (Yamaguchi, Japan), T. Mimura, and Y. Kaneko (Tokyo, Japan) 147

A new method for sequencing linear oligosaccharides on gels using charged, fluorescent conjugates
K. B. Lee, A. Al-Hakim, D. Loganathan, and R. J. Linhardt (Iowa City, IA, U.S.A.) . . 155

Kinetic and mechanistic studies on the rearrangement of 1-(substituted phenyl)-1,3-dimethoxy-2-propanones
G.-q. Chen, Z.-f. Li and P. Zhang (Beijing, People's Republic of China) 169

Notes

Large-scale preparation of sialic acid from chalaza and egg-yolk membrane
L. R. Juneja, M. Koketsu, K. Nishimoto, M. Kim, T. Yamamoto, and T. Itoh (Sendai, Japan) 179

Synthesis of partially-protected D-fructofuranoses and D-fructose-6-phosphates
S. Ayral-Kaloustian and M. Floyd, Jr., (Pearl River, NY, U.S.A.) 187

The sulfate content dependence of the anticagulant activity of a fucan sulfate from the brown seaweed *Ecklonia kurome*
T. Nishino and T. Nagumo (Kanagawa, Japan) 193

End of Special issue

Konformationsanalytische Untersuchungen von N-terminalen *O*-Glycopeptidsequenzen des Interleukin-2
H. Paulsen, A. Pollex-Krüger, and V. Sinwell (Hamburg, Germany) 199

Konformationsanalytische Untersuchungen von D-Xylose-haltigen *O*-Glycopeptidsequenzen
H. Paulsen, R. Busch, V. Sinwell, and A. Pollex-Krüger (Hamburg, Germany) 227

Conformational study of a sugar nitroxyl free radical
J. M. J. Tronchet, A. Ricca, F. Barbalat-Rey, and M. Geoffroy (Geneva, Switzerland) . . 235

Regioselectivity in the sulfation of dermatan sulfate and methyl 4,6-*O*-benzylidene-α-D-idopyranoside
K. G. Ludwig-Baxter, Z. Liu, and A. S. Perlin (Montreal, Canada) 245

Synthesis and characterisation of some lipophilic per(2,6-di-*O*-alkyl)cyclomalto-oligosaccharides
G. Wenz (Mainz, Germany) 257

Further structural studies of the carbohydrate moiety of the allergen Ag-54 (Cla h II) from the mould *Cladosporium herbarum*
M. Swärd-Nordmo, B. Smestad Paulsen, J. K. Wold (Oslo, Norway), T. Wehler, and P.-E. Jansson (Stockholm, Sweden) 267

Structural studies of a rhamnogalacturonan from the stipules of *Musanga cercropoides*
P.-E. Jansson, B. Lindberg (Stockholm, Sweden), M. Ogunlesi, and T. Orebamjo (Lagos, Nigeria) 281

Structure of the *O*-antigen of *Francisella tularensis* strain 15
E. V. Vinogradov, A. S. Shashkov, Yu. A. Knirel, N. K. Kochetkov (Moskow, U.S.S.R.), N. V. Tochtamysheva, S. F. Averin, O. V. Goncharova, and V. S. Khlebnikov (Lyubuchany, U.S.S.R.) 289

Structure and solution properties of tamarind-seed polysaccharide
M. J. Gidley, P. J. Lillford, D. W. Rowlands (Sharnbrook, Great Britain), P. Lang, M. Dentini, V. Crescenzi (Rome, Italy), M. Edwards, C. Fanutti, and J. S. G. Reid (Stirling, Great Britain) 299

Water-soluble polysaccharides as carriers of paramagnetic contrast agents for magnetic resonance imaging: Synthesis and relaxation properties
P. Rongved and J. Klaveness (Oslo, Norway) 315

Cross-linked, degradable starch microspheres as carriers of paramagnetic contrast agents for magnetic resonance imaging: Synthesis, degradation and relaxation properties
P. Rongved (Oslo, Norway), B. Lindberg (Uppsala, Sweden), and J. Klaveness (Oslo, Norway) 325

Note

Synthese tensioaktiver 3-*O*-Alkyl-α-D-glucopyranosylfluoride und 6-*O*-Alkyl-α-D-galactopyranosylfluoride
R. Miethchen, T. Gabriel, D. Peters, J. Holz, and M. Michalik (Rostock, Germany) . . . 331
